

Now you can enjoy all of the high volume attributes of The Volcano II Floating Surface Aerator products more dramatically. **The HydroMax Series** creates a uniform, conical fountain display by adding an assembly within the existing Volcano's float assembly. This will create your desired conical effect, either high or low, with tremendous gpm and subsequent oxygen transfer results. Reach a new level of HydroMaximum Performance for your toughest aquatic conditions, beautifully. Simply specify the Part No. in charts below when ordering your Volcano II Model as required.

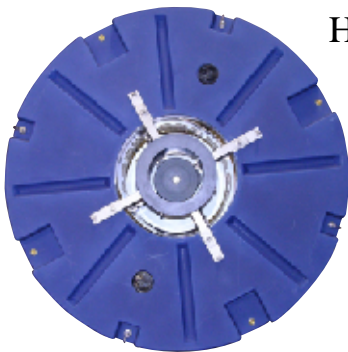

Shasta (Low) 1/2 HP Assembly

Part No.	HP	Height x Diameter	GPM
910042	1/2	1.5' x 7'	324
910070	1.5	4' x 13'	664
