## FUNNELJET™

A powerful, yet elegant, display creating a very wide ring of sparkling water. The FunnelJet series offers a low profile pattern for applications where a water feature is needed but height is not desired.

Powered by a U.L. listed heavy-duty submersible turbine pump, the FunnelJet standard equipment includes a complete U.L. listed control panel.

All our fountain components are fully water-proof and made of the finest corrosion resistant materials to provide years of dependability and high performance.
