TRITIER™

The TriTier series provides one of the most delicate and aesthetic displays offered.

The dramatic three-tier pattern, with its floral arches created by all brass precision machined nozzle and swivel base (available on 5HP and above nozzles) is available in heights from 15 to 46 feet.

Powered by a U.L. listed heavy-duty submersible turbine pump, the TriTier standard equipment includes a complete U.L. listed control panel.

All fountain components are fully waterproof and made of the finest corrosion resistant materials to provide years of dependability and high performance.
